

Bangladesh - S2 Saif S21A has finally received all necessary documents, and is on the air. He will be active on 20- and 15-meter SSB, beginning around 1600Z. On July 19, for example, he was on 21281 kHz, listening 21300-310 kHz. Eric WZ6C expects to get his operating permission soon, and will be on CW and the new bands. QSL both via W4FRU.

Western Kiribati - T30 Five members of the Kyoto Amateur Radio Club of Japan will be active from Tarawa Aug. 8-13, 80-6 meters, SSB, CW, and RTTY. Look for **T30IG** (JH3FJG), **T30TX** (JH3TXR), **T30IL** (JF3PLF), **T30KT** (JI3DLI), and **T30IM** (JI3NTS). QSL all via JA3OIN. Sunrise 1830Z; sunset 0630Z.

Fiji - 3D The same ops will be active as **3D2IG**, **3D2TX**, **3D2IL**, **3D2KT**, and **3D2IM** Aug. 7, and again Aug. 14-15. Again, QSL JA3OIN.

Edited by Chod Harris VP2ML

America's Premier Weekly Amateur Radio Publication

Solomon Islands - H4 H44GC will be active from Fighter 2 base in the Solomon Islands 0800Z Aug. 7 to 0800Z Aug. 9, commemorating the 50th anniversary of the battle for Guadalcanal. Try 7030, 14040, 21040, and 28040 kHz on CW, and 7080, 14280, 21380, and 28480 kHz on SSB. QSL with SASE to Steve Wheatley KU9C, P. O. Box 5953, Parsippany NJ 07054.

St. Vincent - J8 Leo Wolf KB5NME will operate **J8/** from Bequia Island in the Grenadines (NA-025) July 28-Aug. 2. He'll work 10, 15, 20, and 40 meters in the upper portions of the bands, as well as the 10-X contest Aug. 1-2. Mainly SSB, no split operation, and partial calls preferred. QSL home call.

North Cook Islands - ZK1 Bob ZL4DO is now active from the North Cooks as **ZK1RS**. Try 20M SSB at 04-0600Z, 3795 kHz at 1000Z, and 28495 kHz at 2200Z.

Shortly Noted

- The 1992 FOOCI Clipperton Island operation has been accredited for DXCC credit. Cards from this operation may now be submitted for DXCC credit.
- **ZB2FK** has been noted on 10-meter CW at 19-2100Z.
- **9K2MC** likes 14185 kHz at 2330Z; **9K2ZR** has been spotted on 21025 kHz at 1800Z.
- **GB8PP** will be active from Pollock Park, Glasgow, Scotland, home of the Burrell Collection and the Pollock House, birth place of the National trust for Scotland, as part of the Scottish Tourist Board amateur activities.
- **UA9AB** offers help with CIS and ex-USSR QSL cards; try him on 14252 kHz at 0100Z Sundays.
- The **5H0ROA** operation is active, but spots during the first five days of operation have been very scarce.
- **SSB Nets: TN1AT** will be in the 14256 net at 2100Z Aug. 1 and 15. **FR5ZQ/G** on Glorioso will be in the 14256 net Saturdays during August, at 0315Z. Net check-ins: **14222:** (0030Z) **T32LN ZK1TW**; **14227:** (11,22Z) **9A2AA C21BR P29WK OY1HJ 3B8AD 9M8FH 7X2VFK**; **14236:** (02Z) **S79KMB ZK1AR**; **14252:** (04Z) **YI0EB JY3ZH**; **14256:** (2330Z) **T32LN AP2JZB 5N8HKC SV0HW/SV9 FR5ZQ/G**; **28480:** (14Z) **C9RDM**.
- **RTTY:** Regulars: **VQ9YA** 14088 kHz at 2200Z; **UA0KZ** 14090± 0330Z; **9Y4VU** 21090 1730Z; **4X6UO** 14085 0300Z; **9H1ED** 14086± 2200Z.

Islands On The Air

- **AA2AV** will operate from Skeleton Hill Island (NA-111) 2200Z Aug. 7-2200Z Aug. 9. Try 3530, 7035, 7135, 10150, 21035, 21135, 28035, and 28135 kHz on CW, and 3875, 7275, 14235, 21335, and 28335 kHz on SSB. QSL with SASE to Paul Scipione AA2AV, P. O. Box 1233, Piscataway NJ 08854.
- **W2OB** will operate from the Barnegat Lighthouse (NA-111) 12-2300Z Aug. 8-9, celebrating National Lighthouse Day. Try 7040, 14040, 21040, and 28040 khz on CW, and 7225, 14290, 21390, and 28390 kHz on SSB. Send a 9x12" SASE for an unfolded certificate to Joe Fleishinger NU2F, 75 Joshua Dr., Manahawkin NJ 08050.
- Members of the West Island ARC in Montreal will be active as **VE8CWI** from Charlton Island (NA-???) Aug. 8-13. This is CQ Zone 2, and a New One for IOTA. Try 1835, 3505, 7040, 10120, 14040, 18105, 21040, 21120, and 28050 kHz on CW, and 1840, 3780, 7205, 14195, 18130, 21295, 24490, and 28395 kHz on SSB. QSL to Fred Archibald VE2SEI, 130 Embleton Crescent, Pointe Claire, Quebec H9H 3N2, Canada.
- **K5MK/KL7** will operate from the Plover Islands (NA-???) near Barrow, Alaska, Aug. 15-21, on 40-10 meters, including the new bands. Try 20 kHz up on CW, and the IOTA frequencies of 14260, 21260, and 28460 khz on SSB. QSL home call; bureau okay.

Propagation Watch

The combination of increased solar flux and a very quiet geomagnetic field has produced good-to-excellent conditions on most bands. Maximum useable frequencies (MUFs) are still seasonally low, but both 10 and 12 meters have shown some signs of life, mainly on north-south paths.

15 meters has been very productive, from local dawn to well after sunset. 17 meters has been excellent, with long-haul openings. 20 meters remains the principal DX band, at all hours of the day and evening. The quiet geomagnetic conditions have meant that the low bands offer some good DX, more than usually expected in mid-summer.

Look for solar activity to increase over the next two weeks, with possibilities of limited openings on 10 and 12 meters. Don't simply tune across the band and give up if you don't hear anything; call a CQ in a likely direction (toward the sun). Try the lower bands in the evening, especially when the K index is 2 or less.

Sunspot Region 7232 is growing, and may produce some flares before rotating around the back of the sun. Listen for flare reports on WWV and WWVH. Good hunting.

Mt. Athos Controversy Continues

Monk Apollo SV2ASP/A has sent a open letter to the ARRL DXCC desk about the DJ6SI operation from Mt. Athos. It reads:

"I did send you, a long time ago, a letter with all the official papers in which I prove that the transmissions of the German radio amateur Baldur Drobica (DJ6SI) from Mount Athos were illegal. Unfortunately, until now I did not receive any regular reply from you.

"DJ6SI, who overall illegally imported his transceivers in Mount Athos, instead of understanding his mistake and ask for apology, because he challenges an international scandal, he continues his acts, with the same shyness.

"The last act was to write an article in QST, probably the most official magazine, which was published together with a photo showing the cell in which he was hospitalized. The photo pictures him and a monk (named Damaskinos), aside the bells of the cell....

"In other articles that were published, DJ6SI mentions about the CEPT License, but he is not telling the truth; he explains the rules of CEPT LICENSE, the way that fits his purposes!

"I asked the European Community (E.E.C.) to send a copy of this license to me. I posted you a photocopy, in order to show you which is the truth and which is DJ6SI's false point of view.

"All the official papers relative to the subject are registered in the files that the Holy Community Of Mount Athos, the Greek Ministry of External Affairs, the Greek Ministry of Communications, the Greek Amateur Radio Association (R.A.A.G.) keep, as they are waiting for the last fair solution, that you will finally cancel those transmissions DJ6SI made from Mount Athos.

"The Holy Community, with which I'm in continue contact, is very irritated and disappointed with the handling of the problem and informed me that they decided, that in the future they will not permit to Greeks or Foreigners make any transmissions again from Mount Athos, except the monks of Mount Athos.

"Persons and events like this, disturb the peace, the regularity and the prays in Mount Athos; those things that all the people of the World have respected for more than 1000 years and will respect forever.

"As a result, give this fair solution, because otherwise you will continue these kind of problems, as many more will try to do the same and with the same shift, mean way, that DJ6SI did.

"Well, in this Holy place anything has to be done with legal methods, if we want to have the bless of God.

"I want to believe that with the help of God's will, this affair will be finished appropriately, if we want to hear Mount Athos on the air again....

"Anything that was published concerning me and my transmissions from Mount Athos till now, is lies. Any true informations that will come will be valid only if they have a Greek signature.

"If you don't cancel the transmission of DJ6SI, you will never again hear me on the air. Tnx.

"With great sorrow, Monk Apollo," Dohiarou Monastery, 630-87, Mount Athos, Greece.
